

The LWV of Marquette County Member Dues Assistance Plan

The LWV of Marquette County Board of Directors would like to provide, when finances allow, dues assistance to individuals who are unable to cover the cost of dues. This will allow us to include a diversity of individuals whom may not be able to afford dues, assist current members unable to afford to maintain membership and to attract seniors and others on fixed incomes.

Dues Assistance Plan

1. Designate coverage up to three memberships for each fiscal year as the budget allows
2. The membership application form will include a check box to indicate a request for consideration for assistance
3. The President and Vice President will receive the membership forms when a request has been made. The individual requesting assistance will be contacted to determine the specific need. The President and Vice President will make the final determination for approval and will inform the Board that assistance was granted. The expense will be recorded on the Treasurer's report as "dues assistance" without reference to the recipient.
4. Membership assistance will be for a term of one year, with the possibility of renewal
5. The dues assistance program will be re-evaluated for effectiveness and revised as needed
6. This Dues Assistance Plan does not preclude anyone wishing to sponsor someone for Membership
