

LWV of Marquette County

Membership List Policy

Membership is the LWV single most important source of support. The LWV relationship with its members is critical to insuring the support of our mission and work. With respect to our members right to privacy, the LWV of Marquette County has established the following policy and practices for use of our membership list to ensure control in safeguarding against any unauthorized use.

Use of the Membership List by LWV of Marquette County. The LWV works on local, state and national levels. When joining a local League the member becomes part of the national, state and local Leagues. Local members' names are sent to both the national and the state LWV. Members may be contacted directly by the national, state and their local Leagues. The LWV of Marquette County regularly contacts its members to carry out necessary and normal operations. These operations include notice of meetings, membership renewal notices, newsletters, membership publications and notices, programing interests, and other information concerning local activities and news. Most communications are by e-mail, but may also include mail or phone communications.

Use of Membership Information by other League Members. When serving on a LWV of Marquette County committee or participating in a League project a member will likely gain the contact information for other members also participating on the committee or in the event. The LWV of Marquette County asks members to use that information discreetly and only for League business and to never use the information for the purposes of other groups or distribute contact information to other organizations or groups.

Use of the Membership List by other organizations. LWV of Marquette County does not sell, rent, or exchange its membership list with other organizations.

Board approved 3/18/2020
